UNITED STATES DISTRICT COURT
NORTHERN DISTRICT OF CALIFORNIA

Cathy Enwere

v Plaintiff

Telisha Racy &

The Behavioral Mental
Health Clinic & TED'S VILLAGE
PHARMACY

DEFENDANT(S)

CASE No.

NAME OF CLAIM

predetermined intent
CRIMINAL, A TORTIOUS ACT &
A FRAUDULENT ACT to get
patients meds delivered
to the wrong parties

Telisha Racy & Ted's Village pharmacy Enter FALSE STATEMENTS to Client & Patient Ms Cathy Enwere in order to continue control over Cathy Enwere's Medication & her life with Motive And intent. Telish Racy & Ted's Village pharmacy predetermined, calculated, prearranged, designed purpose to commit A WRONGFUL OR CRIMINAL ACT. Called Also Criminal intent the purpose to commit A tortious Act having consequences that the actor desires and believes or knows will occur. The ACCUSE Enter FALSE STATEMENTS TO THEIR Client & Patient Ms. Cathy Enwere because they were giv-

pg 2

ing Cathy Enwere Medication that was harmful to her for two reasons one Ms. Enwere believe they were being tampered with & the other they were addicting. Ms. Enwere constantly complain to both agencies as to how the Med's were making her ill. But I found out what was happening to me was intentional prearranged, deliberate with malice a forethought retaliation from Telisha Racy was for her company she worked for she was to harm Ms. Enwere to keep her promotion as Allnit Chief. Ms. Racy felt she could out smart Ms. Enwere it was crystal clear she wanted Ms. Enwere to be a person who lack normal intelligence she could claim to be weak minded, dumb & screw up, to battle with her mind. She wanted her to have a negative life style become disappointed and depended on her trusting the wolf in sheeps clothing who's every intention was to deliberately destroy a woman of color just like her to get ahead in life so my life meant absolutely nothing to her my life was in danger under her supervision & Dr. Nabeela Rahman My appointed Doctor supervision. Ms. Telisha Racy had Ms.

pg 3

Enwere Medication Transferred to her office. One day Ms. Telisha Racy Called My phone After as I said Above Setting up this phony & fraudulent concealment calculated to deceive Ms. Enwere to her Advantage by knowledge of its falsity or in reckless disregard of its truth or Ms. Enwere wishes. I don't WANT you to Miss the point After the Refusal of Apacthes NAME Above taking Ms. Enwere off Medication, that She told them WAS harming her. Ms. Enwere Finally called CVS pharmacy & got some information as to how to call the Manufacturer to find out why this Medication was harming Me. And what I had found this drug was deadly & that is why the Refusal to take Ms. Enwere off it these Mecks were suggested to only be used for 2-4 weeks. The Manufacturer explained it is addicting & ~~not~~ to get off you have to wing yourself off, so When patient read this She WAS horrified at the Risk taken on her Life & There is Absolutely know excuse for any party above that Refused to hear their clients Voice or cry for help that is BARBARICM-

p34

EATING uncivilized primitive Wild &
 Cruel. Because Anybody in their Right
 Mind Knows that Kind of Behavior is M-
 ost definitely Ludicrous, CRAZY Unexcept-
 able When your patient tell you they're Sick,
 And have taken a turn For the Worse, WE ARE
 the ones Who Let you know whether ARE MEDS
 ARE WORKING not you. So Soon After I found
 out About this Medication I took all my pre-
 scriptions to My PRIMARY CARE Doctor & She
 SAID oh My God & begin winging me off
 My Medication which WE ARE Still Work-
 ing on I have went from 4 pills 5mg^{apiece} to
 1 pill a day Lorazepam, your personal pre-
 scription information from Walgreens, I have
 Also had that Information From CVS. But
 When receiving medication From TEDS pha-
 rmacy they never give me that, Form EVER,
 they told me to get it From the Manufacturer
 & My Doctor Naleeba Rahman told me she
 Could not give me a print out on the Meds
 she ordered And was shocked I found
 out what she was apart off any way After
 Telisha Lied About TEDS pharmacy Changing
 their deliver process And Calling her not
 there Client Ms. ENWERE to tell her

pg 5

This Fabricated lie Telisha Racy like I SAID called Me to get My Meds with to her offices, but it wasn't TED's Village pharmacy that came up with this height Idea it WAS Telisha Racy, so When I caught on, I immediately called to stop Ted from delivering My Meds to the Clinic because I had know Idea that TED would put Medication prescribe from all My Doctors, not even apart of that Clinic, From other hospitals and Doctors would go to Telisha Racy. She New without a doubt she should have NEVER put her hands on medication that wasn't apart of her Clinic, as well as Ted New not to deliver it there but remember I am suppose to be A WEAK minded mental Health patient that wasn't suppose to catch on. So When I told this pharmacy who I gave my business to, to stop delivery At that clinic off all my Medication they told Me they weren't going to do it because they KNEW they were caught so they then decided to call Telisha Racy for her to tell them what to do with my medication

pg 6

And business I gave them so the next thing
 I knew my meds that were ordered by
 Doctor Wong Docusate Sodium 100 mg Softgel
 was given to Tishia Racy After that all
 medicines were delivered to Ms. Enwere
 with out a charge, also I told M^s Racy
 & Dr. Nabeela Rahman & JED's pharmacy
 I WAS VERY upset with their un law-
 ful conduct. That wasn't morally right
 to pray on what you think is the weak
 human cruelty is not acceptable by party
 who has your life in their hand I feel
 I have waited long enough for this Agen-
 cy And their Department of Consumer
 Affairs to do something there is know
 Judge in this world can tell Behavi-
 orial Mental Health Clinic that it is
 alright to lie to your client and have
 her meds come to your offices by
 twisting the truth it is not safe
 for other people to handle your med-
 ication with out your permission
 This is Truly against the Law
 Plaintiff is filing suit against Dmtes,
 About for deliberate Fraud & forcing
 bad addictive drugs on their own

p37

Client After being told the Medicine was harming her and Another Doctor From a different Hospital had to Stop Medication harming the patient because she saw the Reaction Medication was having on her patient, she called my mental Health Doctor to let her know & to have Doctor changed. Once again racial discrimination / so breaking Hippa Laws, AMERICANS with disability Laws. FOR SOME REASON THIS Agency Thinks they can continue to Make Miss in WERE'S LIFE ALIVING hell & THEIR will be Know justice & that All dignitaries of the Law will not Judge this Case on FACTS AND merits but on SKIN COLOR THAT Race will play a part in Racial discrimination AS well There is Know yidge that Can tell you that my pharmacy & a unit chief not my Doctor Should be accepting only AS to WERE my Meds go I will not Stand FOR This behavior Every body Know this is over the top.
